(b) Definitions:		
Account: Is a grouping of premises/points of delivery according to the same voltage or location.		
(Active) Energy Charge: Is a charge for each unit of energy consumed typically charged for as c/kWh or R/MWh. For some tariffs the charge may be time and/or seasonally differentiated.		
Administration Charge / Basic Charge: It is a contribution towards fixed costs such as meter	- Allendarie (1914-1916) (1914-1916) (1914-1916) (1914-1916) (1914-1916) (1914-1916) (1914-1916) (1914-1916)	
reading, billing, administration and maintenance input and is a fixed charge payable every month		
whether electricity is consumed or not.		
Annual Utilised Capacity: Is the higher of the customer's NMD or maximum demand, measured i kVA, registered during a rolling twelve month period.	n	
<b>Billing:</b> Is the process of producing and delivering a bill (an account or invoice) for payment by a customer, calculated from the tariff schedule or as per agreement between the parties (e.g. special	:	
pricing agreements), and for the majority of customers, the consumption measured and recorded by		
the metering system.		
Billing Period: Is the period from one meter reading date (actual or estimated) to the following me	ter	
reading date (actual or estimated).  Chargeable Demand: Is the highest average demand measured in kVA in a billing month during t	he	
chargeable time periods specified for each tariff.		
Chargeable Time Periods: Are the time periods when demand registered will be charged for. The	;	
chargeable time periods differ and are described with the respective tariff.		
Cost-reflective Tariffs: Are tariffs that distinguish between the unique cost components (or cost		
drivers) for a specific customer or customer class and where the cost components recover the full economic cost to supply electricity to that customer.		
Energy Demand Charge: Applicable to Scale 4 and 5 tariffs, is a R/kVA charge per premise which	h	
is seasonally differentiated and is based on the chargeable demand registered during the month in		
order to recover peak energy costs.	and the second backle to the first transfer and the second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second second	
Estimated Load: The total connected load of an installation reduced by the diversity Factors		
laccording to SABS: 0142: 1993.  High Voltage: A nominal voltage of 132 000 Volt (± 5%) between any of the three phase conducto	rs	
(SABS 1019).  Key Customer: Is a customer identified by the Municipality that receives special services or		
consumes/records more than four 500 kVA recordings on contiguous sites.		ATTEMPT ATTEMPT

	Actual 2015/2016 Tariff	Proposed 2016/201
	į	Tari
Licensed Area of Supply: Is an area for which the National Electricity Regulator of South Africa		
(NERSA) has issued a licence to the Municipality under the provisions of the Electricity Act, No. 41		
of 1987, as amended, for supply of electricity in that area. Newcastle Municipality tariffs are only		
applicable where the Municipality is licensed to supply.  Load Factor: Is a ratio between the actual energy consumed and the energy that could have been		
consumed had the demand remained at the maximum for a usage period.		
Low Voltage: A nominal voltage of 400 Volt (± 10%) between any of the three phase conductors and	ereka dari isandan dari in ini di dinderikan darik darikan bandari dinderikan darikan dinderikan banda ini imm	
230 volt (± 10%) between any phase and the neutral conductor (SABS 1019)		
Maximum Demand: Is the highest averaged demand measured in kVA or kW during any integrating		
period (normally 30 minutes) within a designated billing period (during all time periods).		
Maximum Demand Charge: Payable for each kilovolt-ampère (kVA) supplied by the Council to a		
consumer during the demand integrating period of 30 (thirty) consecutive minutes in the month or		
such time periods in the month as may be applicable  Medium Voltage: A nominal voltage of 11 000 Volt (± 5%) between any of the three phase		
conductors (SABS 1019)	•	
Monthly Utilised Capacity: Is the higher of the customer's NMD or maximum demand, measured in		
kVA, registered during the billing month.		
Network Charge: Is a charge payable per premise every month. The purpose of the network charge		
is to recover part of the fixed network costs (including capital, operations, maintenance and		
refurbishment) associated with the provision of network capacity required and reserved by the		
customer. For some tariffs the network charge is unbundled into a Network Demand Charge (NDC)		
and/or a Network Access Charge (NAC).		
Network Demand Charge: Is a charge that recovers network costs on a variable basis and is payable		
for the chargeable demand registered during the month.		
Network Access Charge: Is a charge that recovers network costs on a fixed basis and is based on the annual utilised capacity.		
Notified Maximum Demand (NMD): Is the maximum demand notified in writing by the customer		
and accepted by the Municipality, that the customer requires the Municipality to be in a position to		
supply on demand during all time periods. It is normally the capacity that the Municipality will		
reserve for a customer for the short term, i.e. the following year. One calendar-month's notice must be		
given in writing by the consumer to the Council of any increase or decrease in the notified maximum		
demand and of the date upon which the revised supply is made available, the notified maximum		
demand shall be increased or decreased accordingly. Note: The notification of demand is governed	;	
by a set of rules called the NMD rules.		
Point of Supply: Means a physical point on the electrical network where electricity is supplied to the		
customer or where the customer's network connects to that of the Municipality (also see premise).		
customer of where the eustomer's network connects to that of the manuspanty (also see premise).		
Power Factor: Is the ratio of kW to kVA measured over the same integrating period. Note:		
Contractually a customer may not have a leading power factor or a power factor below 0,85.		
Premise or Point of Delivery: Means either a single Point of Supply or a specific group of Points of		
Supply located within a single substation, at which electricity is supplied to the customer at the same		
declared voltage and tariff, and can be a metering or summation point.		
Rate Components: Are the different charges associated with a tariff that recover different costs, for		
example energy charge.  Rate-rebalancing Levy: Is a separate rate component, shown on Scale 5, Time-of-Use tariff for		
customers' bills and indicating inter-tariff subsidies (subsidies between tariffs) in a more transparent		
manner. The rate-balancing levy is applied to the total active energy consumption and is not subject		
to the voltage and/or transmission surcharge.		
Reactive Energy Charge: Is a charge applicable if applied, to Time-of-Use tariff and is based on the		
reactive power used. It is levied on every kvar/h (reactive energy) which is registered in excess of		
30% of the kWh (active energy) supplied during the specified periods of the month. There is no		
reactive energy charge for a customer operating with a lagging power factor of 0,96 or better. The		
method of calculating this excess differs and is described with the respective tariff.		
Strate above Supplies A SQ Ua on a paper at 220 Varies a phose to positive. The marked coming the		
Single-phase Supply: A 50 Hz a.c. supply at 230 V r.m.s. phase-to-neutral. The neutral carries the full load current.		
Tariff: Is a combination of monthly charges each at particular rates that are usually escalated		
annually and are applied to recover measured quantities such as consumption and capacity costs and		
unmeasured quantities such as service costs.		
Three-phase Supply: A 50 Hz a.c. supply at 230 V r.m.s. phase to neutral; 400 V r.m.s. phase-to-	AT BETWEEN THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STATE OF THE STA	
phase (120° vector phase displacement).		
Time-of-Use (TOU) Tariff: Is a tariff that has different energy rates for different time periods and		
seasons in order to more accurately reflect the shape of the Municipality's long run marginal energy		
cost of supply at different times.		1. 电电影电影电影电影电影电影

	Actual 2015/2016 Tariff	Proposed 2016/201
		Tari
Voltage Surcharge: Is a percentage surcharge levied to customers with lower supply voltages as a		
contribution to the cost to transform electricity from 11 kV to lower voltages. It is calculated as a percentage of the active energy charge, the energy demand charge (where applicable) and the network		
charge to reflect the higher cost at lower voltage.		
2. Conditions applicable to all tariff scales		
(a) A consumer may apply to the Council to be billed on either the standard or the Time-of-Use tariff. A		
consumer may not apply to change over from the standard to the Time-of-Use tariff or from the Time-		
of-Use to the standard tariff more than once in a period of 12 months		
(b) A consumer may apply to the Council to reduce or to increase the size of a circuit breaker (MCB) or		
the notified maximum demand. A consumer may not apply to reduce a circuit breaker or to reduce the		
notified maximum demand more than once in a period of 12 months	· · · · · · · · · · · · · · · · · · ·	
(c) Definitions not covered by the Council's Bylaws will be the same as those recorded in the Eskom Tariff of Charges.		
(d) All infra structure up to the point of supply remains the property of the Newcastle Municipality and		
shall be handed over in accordance with the Electricity Department's standards. Maintenance of these		
assets and replacement will therefore be for the Newcastle Municipality's account.		
l		
. Scale 1 : 20A domestic supplies

	romer manararen meneren remar - mod er - a ak a a - a a - a a -	All service connections above 1500 ampères as described in Scale 5, 6 and 7 are based on cost plus 10% plus extra metering costs as indicated above in Schedule E as determined by the Director:  Technical Services (Electrical/Mechanical Services)
		Any alterations to existing service connections shall be charged at cost plus 10% which shall include the contribution to the additional transformer capacity requirements. The minimum amount payable when only a circuit breaker change is required for the upgrade, shall be the difference between the old
	1. 1. 2. 2. 3. 4. 4. 4. 4. 4. 4. 4. 4. 4. 4. 4. 4. 4.	and new scale as indicated in schedule A, B and C unless the client is within the capacity originally applied and paid for, or as determined by the Director: Technical Services (Electrical/Mechanical Services). Domestic premises requiring additional or three phase electricity shall be charged the
		annronriate scale as indicated in schedule (C and I)
435.6	R 396.00	The existing service connection or 65 kVA, the greater of the two, shall be deducted from the
		transformer capacity costs where after the consumer will be liable for payment, per kVA (VAT not
		applicable) for increased requirements in transformer capacity.  Where the consumer has originally contributed in full for the total transformer capacity or a larger transformer is installed against the consumer's project, no kVA installation charge will be levied.
	<u> </u>	
		Store stock material which is re-usable shall be returned to the municipal stores. The consumer will
		be credited 50% of the current store stock value of these materials. When a service connection is
		reduced the consumer shall bear the full cost of all the material, transport and labour and no refund of any monies on material will be allowed.
		More than one supply or metering point per domestic premises shall be charged for as per three phase supply, Schedule C, plus metering as required.
		Upgrades from single phase to three phase supply shall be charged for as indicated in schedule C and D.
		Individual domestic units in a group and cluster complex shall have separate metering.  The following shall apply to the upgrade of service connections and service connections above 1500
	1.	ampère.  The consumer may supply material and labour or appoint an electrical contractor. All material
		supplied and work carried out shall be to the specification and satisfaction of the Director: Technical
		Services (Electrical/Mechanical Services) (Second-hand materials life time guarantee). A clerk of
		works shall be appointed by the Director: Technical Services (Electrical/Mechanical Services) to oversee the project. Tasks and materials as determined by the Director: Technical Services
		(Electrical/Mechanical Services) shall be carried out/supplied by the Department
		Electrical/Mechanical Services. The project shall be approved in writing by the Director: Technical
		Services (Electrical/Mechanical Services) prior to the commencement of any work. When a consumer
	Ţ.	supplies material and/or labour or appoints a contractor, all existing materials shall be returned to Council and the consumer will not be refunded for any materials.
		All material supplied by the consumer, and workmanship, shall be guaranteed for a minimum of twelve months or longer as required by the Director: Technical Services (Electrical/Mechanical Services). All maintenance costs as determined by the Director: Technical Services
		(Electrical/Mechanical Services) during the guarantee period, shall be for the consumer's account. All material as determined by the Director: Technical Services (Electrical/Mechanical Services) shall be
	ă.	ceded to Council upon completion of the project. All material, transport and labour supplied by Council shall be at cost plus 10% as determined by the Director: Technical Services (Electrical/Mechanical Services).
	·-····································	The cost of service connections shall be a fixed cost calculated at cost plus 10% and valid for sixty
		days from date of application unless the consumer requests alterations to the original design.
	A A	The point of service connections is the point at which the installation on the consumer's premises is connected to the Council's supply mains, or as determined by the Director: Technical Services
	·	(Electrical/ Mechanical Services).  The following shall be the responsibility of the electrical contractor:
		(i) The joint of the cables between the property and Council at the point of supply.
		(ii) An additional length (as determined by the Director: Technical Services (Electrical/Mechanical
		Services) of cable for the connection between the property and Council's equipment.
		solvices) of easile for the conflection between the property and Countries equipment.
