## **2.1 Operating budget performance - revenue**

2.1.1 The municipality generated a total revenue of R500 017 000 of the original budget of R1 650 366 000, representing 30 percent. The variance between the pro-rata revenue budget and the actual revenue accrued for the same period amounts to R19 297 000, representing an over-performance of 4 percent during the period under review. Although the aggregate performance on revenue generated shows over performance of 4%, it is however necessary to explain reasons which attributed to such variance.

2.1.2 The municipality generated R18 347 000 (7%) more revenue from service charges than a pro-rata budget of R247 552 000 for the period under review. The main service charge contributor to that variance was electricity having a variance of R22 000 000 for period under review, due to the cold winter months. Water and refuse have collectively under-performed by R3 979 000, while sanitation over-performed by R327 000. These variances are still considered to be within the acceptable level and are expected to improve during the financial year.

2.1.3 The municipality generated R103 000 (-16%) less revenue from interest on investments than a pro-rata budget of R1 150 000 for the period under review.

2.1.4 As per SC6 on the statement of transfers and grants as well as C7 the Cash Flow statement the municipality has received R187 416 million, R135 316 million for operational grants and R52 100 million for capital grants. This is in line with the payment schedule of DORA allocation as issued by National Treasury.

2.1.5 The municipality generated R2 921 000 (-27%) less revenue from sundry revenue than a pro-rata budget of R10 896 000 for the period under review. The main attributor to this variance are fines which are still under-performing by (-39%), together with other sources of revenue which seem to be under-performing, as advised in previous financial year. It's imperative that RIIT investigate reasons for underperformance with a view to propose solutions.

## **2.2 Operating performance – expenditure**

The summary of the operating expenditure is reflected in C1 and C4 tables of the Schedule C attached hereto. As at the end of September 2017, the municipality incurred the total expenditure of R463 321 000 of the original budget of R1 732 082 000, which represents 27 percent. The variance between the pro-rata expenditure budget and the actual expenditure incurred for the same period amounts to R30 300 000, representing over-expenditure of 7 percent. The attributors to over-expenditure and under-expenditure are discussed below.

2.2.1 Debt impairment reflected an under-expenditure whilst depreciation reflected an over-expenditure. These are accounting items which are non-cash, and are required to reflect on capital charges that compensate for doubtful debtors and assets which deteriorate in value.

It is important that the municipality appropriately budget and contribute in reserves for these items for the future costs of unpaid debtors or replacement of assets. The municipality incurred R9 298 000 (-37%) less than the pro rata budget of R25 452 000 on debt impairment during the period under review. While depreciation over-performed by R52 058 000(84%), this is due to the fact that during budgeting we did not budget for depreciation that result from revaluation of asset as per circular 58 of the MFMA.

2.2.3 The municipality incurred R1 116 000 (-19%) less on councillors remuneration than a pro-rata budget of R5 805 000. This variance is attributed to the provision of EXCO members which were budgeted as full time but not yet approved as such by MEC for COGTA.

2.2.4 The municipality spent R397 000 (-41%) less on materials than a pro-rata budget of R978 000. This is mainly due to the culture of cost containment which has been inculcated.

2.2.5 The municipality spent R362 000 (-7%) less on contracted services than a pro-rata budget of R5 551 000. This under expenditure is mainly due to the delays in finalising the appointment of consultants.

## 2.3 Capital budget performance

Capital expenditure for the third month of the financial year amounted to R24 726 000, which represents 9.7% of the approved capital budget of R253 778 000. Comparison between the pro rata budget of R63 445 000 and actual expenditure for the period reflects an under expenditure of (R38 718 000) which implies that the municipality spent 61 percent less than the budget for the same period.

The spending of capital projects will steadily increase during the course of the year pending procurement processes.

2.4.1 As at end the third month of the financial year, the municipality seemed to be showing a favourable equity position, with a net effect of R7.1 billion. While this picture looks good, it is however important to point out major contributors to such a favourable equity position, being consumer debtors and the property plant and equipment (assets), which cannot instantly be converted into cash. The following provides a closer look on some of critical financial position items:

2.4.2 The municipality's consumer debtors as reflected in table SC3 are R951 832 million as at the third month. The bulk of this amount (R882 860 000) is debt owing for more than 90 days, while R876 018 000 of the total debt is owed by households. It must be noted that the total figure of debtors is inclusive of indigent. While it is appreciated the intervention which was introduced by the Revenue Income Task Team which is mandated to devise strategies of dealing with the escalating debt and there by address or improve cash inflows, it is also recommended that the council also intervenes in this regard as the project of meter restrictors has been stalled.

2.4.3 Property Plant and Equipment (Assets) comprise of R7 billion of the total assets of R8.2 billion as reflected in table C6. These assets comprise of roads, community assets, water infrastructure, electricity infrastructure, other plants and equipment which the municipality has acquired for service delivery as well as for its own use. Service delivery of the municipal is majored by its ability to provide these services to communities. It is however important to note that the majority of these assets may not be easily converted to cash and cash equivalent.

2.4.4 As per AFS received from uThukela indicated that the municipality has a share of 34%, representing an investment in associate of R310million. This also cannot be converted into cash instantly, however its represents the value of the interest of the municipality within the entity.

2.4.5 The municipality closed with a balance of cash and cash equivalent of R37.8 million as at the end of the third month of the financial year. The balance comprise only of call investments of R31.6 million and the cash of R6.1 million, however it must be noted that included on the investment is the housing development fund of R25 million which belong to KZN Department of Human Settlements. Looking at the cash position as mentioned above the municipality is currently not in the position to cover its short-term obligations.

## 2.5 Cash flow analysis

2.5.1 The municipality opened with a cash and cash equivalent balance of R50.5 million at the beginning of the financial year and closed with a balance of R37.8 million as at the end of September 2017, which represents a cash decrease of R12 755 million. These balances both include an amount of R25 million for the Housing Development Fund, which belong to the KZN Department of Human Settlements.

2.5.2 Cash flows from operating activities yielded a net cash inflow of R36 808 million as result of receipts from services charges, property rates, government grants as well as other sundry receipts. This net cash inflows was after the municipality paid its suppliers for services rendered, remunerated its employees and paid the portion of the outstanding interest on loans.

2.5.3 Cash flows from investing activities recorded a cash outflow of R24 726 million. This was the actual cash used by the municipality to implement its capital budget over the past three months.

2.5.4 Cash flows from financing activities recorded a cash outflow of R24 837 million. This relates to the cash paid by the municipality to repay a portion of its long term loan.

### **CONCLUSION**

Cooperation within management and structures in council is required in order to curb expenditure on the budget throughout the course of the year. The issues that still reflect variances in the budget performance report must be monitored and managed to ensure that the municipality operates within the approved budget.

Furthermore, the municipality will continue to explore and implement effective credit control measures in order to strengthen its cash base, especially from individual consumers. Other revenue enhancement strategies over and above those currently yielding revenue will have to be explored with a view to widen the revenue and cash base as these seem to be the solution to turn the cash-flow situation around.

### **RECOMMENDED**

- (a) that S71 for the month ended 30 September be noted;
- (b) that council reconsider resuscitating water restrictor programme as a means to improve cash inflows
