SECTION 72: MID YEAR ASSESSMENT : NATIONAL REPORTING STANDARD : (T 6/1/1-2015/2016) :
BUDGET AND TREASURY OFFICE: 19 JANUARY 2016

EXECUTIVE SUMMARY

In terms of Section 72(1) of the Local Government: Municipal Finance Management Act, (Act No. 56 of 2003), the Accounting Officer of the municipality must, by 25 January of each year, assess the performance of the municipality during the first half of the financial year, in performing such assessment the Accounting Officer must take the following into account:

- the monthly statements referred to section 71 for the first half of the financial year;
- the municipality's service delivery performance during the first half of the financial year, and service delivery targets and performance indicators set on the Service Delivery and Budget Implementation Plan (SDBIP);
- the past year's annual report and progress on resolving problems identified in the annual report through the action plan.

The Accounting Officer must as part of review:

- make recommendations as to whether an adjustment budget is necessary and
- recommend revised projections for revenue and expenditure.

The Accounting Officer must then, submit a report on such assessment to the Mayor of the municipality, the National Treasury and the relevant Provincial Treasury. The Mayor must in turn, comply with the provision of Section 54, which include submitting the report to council by 31 January of that particular budget year.

RECOMMENDED:

- | | | |
|-----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------|
| (a) | That the mid-year operating performance, capital expenditure, financial position and cash flow assessments for the first half of the year be noted | SED: Budget & Treasury Office |
| (b) | That, due to budget variances indicated in the attached assessment report, the Accounting Officer be mandated to prepare and submit the adjustment budget for consideration of Council as per section 28 of the Municipal Finance Management Act No.56 of 2003. | |
| (c) | That the Strategic Executive Directors commit themselves to maintaining a credible budget target for revenue and expenditure. | |
| (d) | That the Strategic Executive Directors acknowledge the significance of the 2015/16 capital budget as a service delivery barometer. | |

1. INTRODUCTION

In terms of Section 72(1) of the Local Government: Municipal Finance Management Act, (Act No. 56 of 2003), the Accounting Officer of the municipality must, by 25 January of each year, assess the performance of the municipality during the first half of the financial year, and submit a report of such assessment to the Mayor of the municipality, the National Treasury and the relevant Provincial Treasury. The Mayor must in turn, comply with the provision of Section 54, which include submitting the report to council by 31 January of each year. In performing such assessment the Accounting Officer must take the following into account:

- The monthly statements referred to section 71 for the first half of the financial year
- The municipality's SDBIP
- The past year's annual report and progress on resolving problems identified in the annual report

The Budget and Treasury Office is currently in the process of compiling the Interim Financial Statements and thus the figures in the report are only provisional pending the finalisation thereof.

2. ASSESSMENT OF THE MID-YEAR FINANCIAL PERFORMANCE

The financial performance results of the municipality during the first six months of the current financial year are put under perspective hereunder. Focus will be directed to assessment of financial performance, capital expenditure, statement of financial position and cash flow position.

2.1 FINANCIAL PERFORMANCE ASSESSMENT

The financial results and performance of income and expenditure for the first half of the financial year is analysed below. Reference is made to schedule C1 for this purpose.

2.1.1 Operating Revenue

The year-to-date revenue performance for the first half of the financial year is 7% (R63.0 million) less than the year-to-date budget for the same period. The municipality generated about 53% of R1.580 billion operating revenue budget, indicating the under-performance in overall revenue. A variance of 7% (R63.0 million) is mainly attributed to the following:

2.1.1.1 Property Rates

The municipality generated revenue of 4% (R4.7 million) less than the budget during the first six months of the year. This is mainly due to the valuation performed in the previous financial year, the impact of which only became fully effective during the current financial year.

2.1.1.2 Service Charges

The municipality generated revenue of 12% (R58.4 million) less than the budget during the first six months of the year. This is mainly due to variances in billings for water and electricity, which are both affected by weather seasons as well as festive and other holidays. The revenue of these items is expected to pick up during spring and winter seasons, which should compensate for the under-performance.

2.1.1.3 Investment Revenue

The municipality generated investment revenue of 3% (R176 000) less than the budget during the first six months of the year. This is mainly due withdrawals done late in the 2015/2016 financial year after the annual

budget was approved by Councils. These withdrawals were necessary to cover capital expenditure due to delays experienced in finalising the procurement of an external loan.

2.1.1.4 Grants and Subsidies

No variances have been experienced with regards to the appropriation and receipting of government grants and subsidies during the first six months of the financial year. The amount of R21 million off-set by National Treasury against equitable share in respect of 2014/2015 unspent conditional grants was replenished through from the respective conditional grants.

The current state of affairs indicates that revenue is under-performing by 7% (R16.0 million) from the original budget of R1.580 billion. Projections indicates that if measures are not put in place to improve its revenue, the municipality may need to consider adjusting its revenue budget to downwards to R1.454 billion, which represents a decrease of 7% (R126 million) from the original budget.

2.1.2 Operating Expenditure

During the first half of the financial year, the municipality spent almost 100% of its year-to-date budget, which represents approximately 50% of the original budget of R1.478 billion. Although there was under-performance in other expenditure items, this was however compensated by favourable performance in other items, which yielded a balanced expenditure performance of the first half of the year. Some of the variances per expenditure type are hereby explained below.

1.2.2.1 Employee Costs

The municipality spent 4% (8.4 million) more than the year-to-date budget. This is mainly due to the engineering process implemented in October 2015, which the Council did not budget for. Although there was moratorium in the filling of vacancies, the impact of re-engineering was too heavy to be compensated by such savings. Indications further reveal that the current employee cost budget will not be adequate to deal with the impact of the re-engineering process, since the municipality is still attending to a number of appeals and objections. Furthermore, a number of critical positions still need to be filled as a result resignations, in order to deal with operational challenges.

1.2.2.2 Remuneration of Councillors

The municipality spent 5% (514 000) less than the year-to-date budget during the first half of the year. This is mainly due to the late approval of increase in the upper limits of councillors' allowances, which was approved by the MEC on 21 December 2015. The impact of such increase will only be evident in the second half of the financial year. The calculation of the amount required for the upper limits revealed a short-fall in the appropriation of this budget, on which recommendation for consideration of adjustment budget was forwarded.

1.2.2.3 Depreciation and Asset Impairment

The municipality incurred expenditure of 6% (R7.6 million) more than the year-to-date budget during the first half of the year. This is mainly attributed to changes in the asset register emanating from valuation of infrastructure assets, which was not finalised when the annual budget was approved by Council. The revised asset register increased the value of assets, which attracted more depreciation in the current year.

1.2.2.4 Finance Charges

The municipality incurred expenditure of 51% (R13.8 million) more than the year-to-date budget during the first half of the year. This is mainly attributed to delays experienced in finalising the long-term loan bid during the

previous financial year. The annual budget was finalised before proposals for bids were received and finalised, which led to under-provision in the budget appropriation for finance charged.

1.2.2.5 Materials and Bulk Purchases

The materials bulk purchases seem to be performing at par with the original budget. The municipality may however need to investigate the possibility of the impact of different weather seasons to ascertain the credibility of budget performance for the rest of the financial year.

1.2.2.6 Transfers and Grants

The municipality incurred expenditure of 8% (R3.0 million) more than the year-to-date budget during the first half of the year. This is mainly attributed to more applications for indigent benefit received than anticipated, which resulted in the additional equitable share allocated to deal with the payment of this benefit.

1.2.2.7 General Expenses

The municipality spent 12% (R32.2 million) less than the year-to-date budget on its general expenses. The delays in procurement process for some of the operating goods and services are a major concern which had an contribution on the performance.

Current state of affairs indicates the good overall expenditure performance, however the municipality needs to further examine individual expenditure items patterns, which are either over or under-performing. The original expenditure budget seems to be in line with the actual performance, hence appropriation of additional expenditure is not recommended taking into account the fact that revenue is not performing at expected level.

2.2.3 Net Operating Results

As a result of under-performance of revenue, the municipality recorded a deficit of R215% (R63.3 million) more than during the first half of the financial year. As the municipality is already operating at the deficit, it is advised that additional expenditure budget be not appropriated during the adjustment budget. Furthermore, the municipality's expenditure on depreciation and impairments seem to be increasing over the years due to the capital infrastructure injection as well as the taking over of Uthukela Water Entity. The municipality will therefore need to consider the long-term impact of these assets, by putting measures to reduce its deficit and begin to move towards a budget surplus since the new assets will in future be funded from municipal internal reserves.

2.2 CAPITAL EXPENDITURE

Capital expenditure incurred at the end the first half of the year amounted to 32% (135.5 million) less than the year-to-date budget of R200.2 million. This represents performance of 34% of the original budget of R400.5 million for the entire year. The under-performance on capital expenditure is attributed to the delays in procurement processes as well as the project implementation plans, of which the expenditure is expected to take place during the second half of the year.

Under-expenditure per vote is as follows:

| | | |
|--------------------------------------------|-------|-----------------|
| Corporate Service | 52.6% | (R42.3 million) |
| Community Services | 44.2% | (R21.5 million) |
| Budget and Treasury Office | 45.9% | (R917 thousand) |
| Municipal Manager | 0% | (R 0 million) |
| Development Planning and Human Settlements | 12.8% | (R5.9 million) |
| Technical Services | 24.5% | (R45.5 million) |
| Electrical & Mechanical Services | 58% | (R19.5million) |

2.3 FINANCIAL POSITION ASSESSMENT

As at the end of first half of the year, the results indicate a healthy state of affairs, with total assets exceeding total liabilities by R4.5 billion. The municipality also proves to be liquid when comparing current assets against current liabilities in the same period, with current assets exceeding current liabilities by R801 million. Reference is made to table C6 for this purpose.

2.3.1 Assets

The total assets of the municipality amounted to R5.5 billion, which represents a variance of 11% R661 942 against the budget of R6.1 billion. The following are some of the major variances between the budget and the actual results.

2.3.1.1 Cash and Cash equivalents

The municipality reported 64% (R275 601) less than anticipated on cash and cash equivalent. Compared to the audited actual of R340.8 million for prior year, the cash position of the municipality has been seen to be dropping drastically due to expenditure on capital programme funded from internal reserves. There is need for the municipality to review the budget for this item.

2.3.1.2 Inventory and other debtors

As at the end of the first half of the year, the municipality reported R12.9 million and R152 million for inventory and for other short term debtors respectively. No provision budget provision was appropriated in the original budget for these items. Hence, there is a need for the municipality to appropriate budget for these items in the current year.

2.3.1.3 Investment Property

The investment property was stated at R207.5 million at the end of the first half of the year, which is 17% (R36.2 million) less than an original budget of R171.2 million. This was due to valuation of investment properties undertaken at the end of the prior year, which was concluded after the annual budget was approved. There is a need to review the budget for this item in line with the said valuation and the outcome of 2014/2015 audit.

2.3.1.4 Investment in Associate

The investment in associate was stated at R413.0 million at the end of the first half of the financial year, which was 65% (R759 183) less than an original budget of R1.1 billion. The budget of R1.1 was based in the previous municipal interest with uThukela Water prior to taking over of water and sewer reticulation. There is a need to review the budget for this item in line with current municipality's interest in the entity.

2.3.1.5 Debtors

The municipality's consumer debtors as reflected in table SC3 continued to increase and by the end of the first half of the year, the gross total debtors amounted to R1.1 billion. The bulk of this amount (R1.0 billion) is debt owing for more than 90 days, while R947.4 million of the total debt is owed by households. This needs to be attended to urgently as failure to do so might impact negatively on the municipality's cash flows. Table SC9 shows that the monthly collection rates per each revenue source are very low compared to the monthly billings per each revenue source.

2.3.1.6 Property Plant and Equipment

The property plant and equipment was stated at R3.8 billion at the end of the first half of the financial year, which is 16% (R607 024) more than an original budget of R3.2 billion. This is due to valuation of assets taken over from uThukela Water which was conducted at the end of prior financial year, which was only finalised when the municipal annual budget was approved. There is a need to review the budget for this item in line with current latest valuation, and the performance of capital expenditure.

2.3.2 Liabilities

The total assets of the municipality amounted to R946.1 million, which represents a variance of 50% (R315 9100) higher against the budget of R630.2 million. The following are some of the major variances between the budget and the actual results.

2.3.2.1 Trade and Other Payables

The property plant and equipment was stated at R318.7 million at the end of the first half of the financial year, which was 198% (R205 574) more than an original budget of R103 million. This is mainly due to new allocations of conditional grants allocated as received during the current year, coupled with slow expenditure of capital expenditure funded from this grant.

2.3.2.2 Provisions

The provisions were stated at R111.8 million at the end of the first half of the financial year, which was 20% (R27.2 million) more than an original budget of R139.1 million. The increase in the staff complement, the engineering process and pending litigations against the municipality are a major cause of this variance. There is a need for the municipality to review the budget for this item in line with additional provision for staff actuarial benefit as well as the recent litigations against the municipality.

2.4. CASH FLOW ASSESSMENT

The municipal results for the first six months of the financial year reveal that cash and a cash equivalent of municipality is decreasing drastically. During the previous year, the municipality closed with a cash balance of R340.8 inclusive of call investments. As at the end of December 2015, the cash position of the municipality was standing at R153.7 million, which a noticeable decrease of 56% (R187.1 million). This further represents a variance of against the original budget of R429.3 million. This information is reflected in table C7 of the schedules.

3. CONCLUSION

It is anticipated that the Strategic Executive Directors will uphold the practise of credible budgeting and govern their annual allocations of revenue and expenditure in a timely and financially disciplined fashion on a monthly basis. The explanation of variances above further indicate that Council may need to consider the possibility of revising its annual budget through the adjustment budget in order to deal with variances and projection identified as part of the review. The adjustment budget will further assist in addressing variances identified under each revenue source, expenditure item as well as the possibility of reducing or rolling-over its capital budget where further procurement delays are expected to persist. It will also serve as a process to rectify the errors identified during the assessment of financial position as well as cash flow assessments.

KZN252 Newcastle - Supporting Table SC1 Material variance explanations - Mid-Year Assessment

| Ref | Description | Variance | Reasons for material deviations | Remedial or corrective steps/remarks |
|-----|---------------------------------------|----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------|
| | R thousands | | | |
| 1 | <u>Revenue By Source</u> | | | |
| | Service Charges- Electricity | -10% | Electricity revenue is dependent on levels of consumption and therefore fluctuates every month. | |
| | Service Charges- Sanitation | -19% | Sanitation revenue is dependent on levels of consumption and therefore fluctuates every month. | |
| | Services Charges- Refuse | -30% | Refuse revenue is dependent on levels of consumption and therefore fluctuates every month. | |
| | Licences and permits | -27% | Revenue from this item is depended on community requests | |
| | Interest earned : outstanding debtors | -43% | Dependent on the interest earned on the debtors analysis | |
| | Fines Recognised | 84% | Fines recognised is dependent on the number of fines charged against offenses | |
| 2 | <u>Expenditure By Type</u> | | | |
| | Finance Charges | 102% | Expenditure on finance charges was delayed due to the process of acquiring the external loan which took longer than expected, as a result the loan interest on the loan was not properly budgeted for. | The budget for finance charges will be adjusted with the Adjusted Budget. |
| | Debt Impairment | -31% | Our system only allows for the calculation of Debt impairment to be at interim and year end. | |
| | Materials | -11% | Material levels are low due to the low consumption | |
| | Other Expenditure | -13% | A number of different expenditure items which have made the year to date figure to be lower than anticipated such as we recognise Indigents and free basic electricity under the transfers recognised item, yet the budget for the free basic services lies under other expenditure. | |
| 3 | <u>Capital Expenditure</u> | | | |
| | Total Capital Expenditure | -32% | Slow spending of the Capital Budget mainly due to either SCM processes or a delay on the side of the relevant Department initiating spending. The targets that are submitted to PMS are not inline with the Budget Projections on the Financial system | Going forward our Financial System will align the budget projections with the PMS submissions |
| 4 | <u>Financial Position</u> | | | |
| 5 | <u>Cash Flow</u> | | | |
| 6 | <u>Measurable performance</u> | | The variances in both capital and operational budget performances resulted in the variance in the overall performance of the municipality | |
| 7 | <u>Municipal Entities</u> | | | |
