4 : MID-YEAR ASSESSMENT : 2019/2020

(i) Section 72 : Mid-year budget and performance assessment : (BTO 6/1/1 - 2019/2020)

RESOLVED

- (a) That the mid-year budget review for the period ended 31 December 2019, be noted and approved;
- (b) that, based on the variances presented between the approved budget and actuals for the first half of the year, an adjustment budget is necessary;
- (c) that the Accounting Officer be mandated to submit the mid-year adjustment assessment report to National and Provincial Treasuries as required by S72(1)(b) of the Municipal Finance Management Act, N°. 56 of 2003;
- (d) that, subject to approval of recommendation (b) above, the Accounting Officer be mandated to submit the adjustment budget in terms of Section 28 of the Municipal Finance Management Act;

(iii)

- (e) that departmental budgetary requirements be dealt with administratively and addressed in terms of the approved virement policy pending approval of the adjustment budget.

I, the undersigned, **MUZI JUSTICE MAYISELA**, in my capacity as **ACTING MUNICIPAL MANAGER** to the Newcastle Municipal Council, hereby certify the above as a true extract from the minutes of the meeting held on 29 January 2020.

M.J. MAYISELA
ACTING MUNICIPAL MANAGER

Newcastle

SECTION 72 : MID-YEAR BUDGET AND PERFORMANCE ASSESSMENT : 23 JANUARY 2020: (T 6/1/1-2019/2020): BUDGET AND TREASURY OFFICE

REPORT TO THE NEWCASTLE MUNICIPAL COUNCIL

File Reference:
Report Number:

Author: M S Ndlovu
Designation: Director: Budget and Financial Reporting

FOR CONSIDERATION

1st Level: EXECUTIVE COMMITTEE
2nd Level: COUNCIL
3rd Level: PROVINCIAL AND NATIONAL TREASURY

SUBJECT: MID-YEAR BUDGET REVIEW IN TERMS OF SECTION 72 OF THE MFMA
DATE: 23 JANUARY 2020

1. PURPOSE

The purpose of this report is to comply with Section 72 of the Municipal Finance Management Act (MFMA) and section 33 of the Municipal Budget and Reporting Regulations as promulgated in the Government Gazette No.32141 dated 17 April 2009. This legislative framework requires that specific information be reported on and in the formats prescribed. In compliance with the same legislation, this report will be submitted to both National and KZN Provincial Treasuries for assessment. The report should be able to provide Council with adequate analysis in order to determine if the adjustments budget will be necessary and areas on which it shall focus.

2. ANNEXURES

The following annexures are attached in support of the Schedule C budget review tables:

- 2.1 uThukela Water Financial Performance report
- 2.2 Financial Reports as at 31 December 2019
 - 2.2.1 Monthly Financial Statements
 - 2.2.2 Employee Costs Reconciliation
 - 2.2.3 Grant register
 - 2.2.4 Investment register
 - 2.2.5 Eskom bulk electricity account
 - 2.2.6 Bank Statements

3. BACKGROUND

Section 72 of the Municipal Finance Management Act, No. 56 of 2003, read together with regulation 33 of the Municipal Budget and Reporting Regulations require, inter alia, that the Accounting Officer submit a report to the Mayor, Provincial and National Treasury by 25 January of each year. The report must as far as possible assess the performance and financial status of the municipality in relation to the approved budget at the end of the first half of the financial year. The same report must further be submitted by the Mayor to Council by 31 January each year. This report is therefore submitted in compliance with the above provisions.

It is imperative to remind Council that the 2019/20 annual budget of the municipality was approved, however concerns were raised by both National and Provincial Treasuries that the budget was not funded. The council was advised by Provincial and National Treasury to adjust the budget and the council has already adjusted the budget thrice in the first six months of the financial year. Despite all effort from the municipal administrative, COGTA, Provincial and National Treasuries, the budget still appears to be unfunded.

Furthermore, the monthly financial performance report (Section 71 reports) indicated challenges of cash flow very early in the financial year. This state of affairs is therefore challenging both political and administrative wings to use this opportunity to carefully analyse the financial performance report and address any such matters through an adjustments budget. The municipality has also submitted a plan as to how we can improve from unfunded budget, which plan was adopted by Council in November 2019.

This report shall seek to exhaustively analyse the actual financial performance of the municipality for first six months of the financial year against the approved special adjusted budget, provide reasons for major variances, where applicable, and provide guidance on areas that will need attention during the adjustments budget.

4. ASSESSMENT OF FINANCIAL RESULTS

The mid-year budget review report provides analysis of the operating budget performance, capital budget performance, position as well as the cash flows. Major variance and those items with an impact in each of these categories are discussed in the analysis below.

4.1 Operating budget performance revenue

The operating budget performance focuses on the assessment of the operating revenue, operating expenditure as well as the net effect of the two, being surplus or the deficit. These are comprehensively discussed below. The summary of operating performance is shown in the tables C1 and C4 of the Schedule C and is summarised in Table 1 below:

4.1.1 Operating revenue

The summary of the operating revenue is reflected in Table 1 below and has been extracted from C4 table of the Schedule C attached. During the first half of the financial year, the municipality generated a total revenue of R954 927 000 of the approved special adjusted budget of R1 914 407 000, which represents 49.8 percent. The variance between the year-

to-date revenue budget and the actual revenue accrued for the same period amounts to R120 879 000. The variances and reasons thereof are discussed below.

Table 1: Operating Revenue by Revenue Source

Description	2018/19	Budget Year 2019/20						
	Audited Outcome	Original Budget	Adjusted Budget	Monthly actual	Year TD actual	YearTD budget	YTD variance	YTD variance %

Transfers and subsidies	498,547	431,718	533,109	799	260,608	385,157	(124,549)	-32%
Other revenue	23,627	31,810	36,084	727	5,051	18,042	(12,991)	-72%
Gains on disposal of PPE	-	2,332	2,332	-	4,714	1,166	3,548	304%
Total Revenue (excluding capital transfers and contributions)	1,842,887	2,082,724	1,914,407	168,188	954,927	1,075,806	(120,879)	-11%

Property rates

The municipality generated R6 239 000 (4%) more revenue from property rates than the year-to-date budget of R154 169 000 during the period under review. The variance is attributable to government departments billed for the property rates in July for the entire year. This variance is expected to reduce gradually up to the end of the financial year. The variance is considered to be within acceptable level. There is no need to review this item significantly during the adjustments budget.

Service charges - electricity

The municipality generated R11 043 000 (4%) more revenue from electricity than the year-to-date budget of R311 892 000 for the period under review. The variance is attributable to the seasonal consumption which is fluctuating during the year, the variance is expected to reduce as the financial year progresses. There is a need to relook and correct the budget for this item in the adjustment budget, however the variance of 4% is within the acceptable level.

Service charges – water

The municipality generated R9 999 000 (13%) more revenue from water than the year-to-date budget of R79 091 000 for the period under review. The hot summer season, coupled with lower rain levels have resulted in more demand for water consumption. There is a need to relook and correct the budget for this item in line with realistic consumption and trends during the adjustments budget.

Service charges – sanitation

The municipality generated R6 253 000 (-10%) less revenue from sanitation than a pro-rata budget of R62 419 000 for the period under review. Business sewer is levied in accordance with water consumption. The additional demand for water consumption as explained above has directly resulted in additional revenue for sanitation. There is need to review this item during the adjustments budget.

Service charges – refuse

The municipality generated R8 705 000 (-18%) less revenue from refuse removal than the year-to-date budget of R48 564 000 during the period under review. Challenges with regards to staff and delays in the waste management has resulted in the lower adjustment in the refuse being levied in order to deal with consumer service dissatisfaction. There is a need to adjust the budget for this item downwards during the adjustments budget.

Rental of facilities

The municipality generated R354 000 (-8%) less revenue from rental of facilities than the year-to-date budget of R4 331 000 during the period under review. The municipality took a resolution to dispose all municipal-owned houses, from which rental income was previously generated. The impact of this decision has resulted in less revenue rental generated during the first half of the year. This item will be adjusted downwards during the adjustments budget.

Interest earned – external investments

The municipality generated R1 152 000 (-57%) more revenue from interest on investments than a year-to-date budget of R2 020 000 for the period under review. The municipality has been struggling to make additional investments due to its cash-flow challenges. The delays in receiving some of the grants as projected by government departments, also resulted in less funds available for operations. This item will be adjusted downwards during the adjustments budget based on the performance.

Interest earned – outstanding debtors

The municipality generated R725 000 (-15%) less revenue from interest on outstanding debtors than the year-to-date budget of R4 890 000 during the period under review. This charge is only applicable to business accounts which are in arrears. This variance is attributable to the effective incentive scheme which was implemented by the municipality over the past twelve months. This item will be adjusted downwards during the adjustments budget based on the performance.

Fines

The municipality generated R3 024 000 (75%) more revenue from fines than the year-to-date budget of R4 059 000 during the period under review. Fines are dependent on law enforcement and compliance of motorists thereto. Based on the current performance, this might be adjusted downwards during the adjustments budget.

Transfers recognised – operational

The municipality generated R124 549 000 less revenue from government grants than the year-to-date budget of R385 157 000. The variance is attributable to the 2nd trench of the equitable share that the municipality expected to receive in December 2019, but was not received due to the fact that the municipal budget was not fully funded. After adopting a special adjustments budget, the municipality only received its 2nd trench in January 2020. A need make any adjustments on grants and subsidies during the adjustments budget will be dependent on any DORA and provincial allocations to the municipality.

Other revenue

The municipality generated R 12 991 000 (-72%) less revenue from sundry revenue than the year-to-date budget of R18 042 000 during the period under review. This is due to the incorrect classification of revenue, which was re-classified in line with mSCOA during the year. The budget for this item will be corrected during the adjustments budget.

4.1.2 Operating expenditure

The summary of the operating expenditure is reflected in Table 2 below and has been extracted from C4 table of the Schedule C attached. The municipality incurred the total expenditure of R1 047 548 000 of the approved budget of R2 365 915 000, which represents 44 percent. The variance between the year-to-date expenditure budget and the actual expenditure incurred for the same period amounts to R135 410 000, representing under-expenditure of 11 percent during the period under review. Variances and reasons which attributed to over/under expenditure in each item of expenditure are explain below.

Table 2: Operating Expenditure by Expenditure Type

Description	2018/19	Budget Year 2019/20						
	Audited Outcome	Original Budget	Adjusted Budget	Monthly actual	YearTD actual	YearTD budget	YTD variance	YTD variance %
R thousands								
Expenditure By Type								
Employee related costs	557,861	591,321	562,321	39,619	289,468	281,161	8,307	3%
Remuneration of councillors	24,657	26,845	26,845	2,185	12,837	13,422	(586)	-4%
Debt impairment	89,608	174,245	174,245	1,036	58,865	87,123	(28,257)	-32%
Depreciation & asset impairment	361,880	491,982	491,982	31,126	184,768	245,991	(61,222)	-25%
Finance charges	61,665	45,042	45,042	3,836	26,677	22,521	4,156	18%
Bulk purchases	524,211	684,074	631,074	41,288	283,030	315,537	(32,507)	-10%
Other materials	5,975	4,310	3,319	153	742	1,659	(918)	-55%
Contracted services	74,012	54,249	143,756	29,317	102,077	71,878	30,199	42%
Transfers and subsidies	-	-	-	-	-	-	-	-
Other expenditure	306,101	332,640	287,331	19,712	89,084	143,666	(54,582)	-38%
Loss on disposal of PPE	-	-	-	-	-	-	-	-
Total Expenditure	2,005,971	2,404,708	2,365,915	168,272	1,047,548	1,182,957	(135,410)	-11%

Employee related costs

The municipality spent R8 307 000 (3%) more on employee related costs than the year-to-date budget of R281 161 000 during the period under review. The variance is attributable mainly to overtime and the night shift allowance. The provision for employee costs needs to be adjusted upwards during the adjustments budget.

Remuneration of councillors

The municipality spent R586 000 (-4%) less on the remuneration of Councillors than the year-to-date budget of R13 422 000 during the period under review. The variance is attributed to EXCO members who resigned during the first half of the financial year, however those positions have been filled. The variance are savings that accumulated during the time the positions were still vacant. The variance is considered to be within the acceptable level.

Debt impairment

The municipality incurred R28 257 000 (-32%) less on debt impairment than the year-to-date budget of R87 123 000 during the period under review. This due to the fact that the full impact of debt impairment will be effected at the end of the financial year. Based on the current

collection trends and the 2019 audited financial statements, this item will still be looked at during the adjustments budget.

Depreciation and asset impairment

The municipality incurred R61 222 000 (-25%) less on depreciation and asset impairment than the year-to-date budget of R245 991 000 during the period under review. The variance is attributable to the slow capital expenditure as well as the infrastructure projects still under construction. There is however a need to adjust this item downwards during the adjustments budget.

Finance charges

The municipality spent R4 156 000 (18%) more on finance charges than the year-to-date budget of R22 521 000 during the period under review. The variance is attributable to interest and penalties on overdue accounts for loans and SARS. The cash-flow challenges faced by the municipality has resulted in late payments.

Bulk purchases

The municipality spent R32 507 000 (-10%) less on bulk purchases than the year-to-date budget of R315 537 000 during the period under review. The variance is attributable to lower demand for consumption for electricity since most businesses in the jurisdiction are struggling economically. The effect of load shedding has also resulted in lower demand for electricity. This item will be assessed based on the expected demand during the remainder of the financial year, and where necessary, be adjusted accordingly.

Contracted services

The adjusted budget for contracted services seem to be very high when compared to the original budget. The council is reminded of the R91 million for the housing projects that was appropriated into the budget early in the financial year.

The municipality spent R30 199 000 (42%) more on contracted services than the year-to-date budget of R71 878 000. This over expenditure is due to external security services as well as the finance consultant fees. Taking into consideration the year-to-date expenditure on security services, the full year forecast projection indicates that the municipality will require additional R7 million to accommodate this line item if no action is taken to curb it. Finance consultant fees were necessary for the compilation of a GRAP compliance AFS and the asset register, which will not be necessary for the remainder of the financial year. The municipality is urged to implement strict budget control measure in order to remain within the budget.

Other general expenditure

The municipality spent R54 582 000 (-38%) less on other general expenses than the year-to-date budget of R143 666 000 during the period under review. Stringent budget monitoring and expenditure curbing have been applied in order to deal with the current cash flow situation. When full forecast is projected the following items needs attention during adjustments budget. These include, but not limited to, the departmental charges rates, training, legal expense, interest expense, machinery hire, VIP toilets, telephone and SALGA membership fees. It is recommended that cost containment and budget control measures are exercised under this expenditure item. Adjustments may only be done through movement of funds within items in order to ensure that funding is available in items that are very key for service delivery. Otherwise, it is recommended that this item be reduced further during the adjustments budget.

3.1.3 Net operating results (surplus)

The summary of the net operating results for the half of the financial year is reflected in Table 3 below.

Table 3: Summary statement of Financial Performance

Description	2018/19	Budget Year 2019/20							
	Audited Outcome	Original Budget	Adjusted Budget	Monthly actual	YearTD actual	YearTD budget	YTD variance	YTD variance %	Full Year Forecast
R thousands									
Total Operating Revenue (excluding capital transfers and contributions)	1,842,887	2,002,724	1,914,407	108,188	954,927	1,075,006	(120,879)	-11%	1,914,407
Total Operating Expenditure	2,005,971	2,404,708	2,365,915	168,272	1,047,548	1,182,957	(135,410)	-11%	2,365,915
Surplus/(Deficit)	(163,084)	(401,983)	(451,508)	(60,083)	(92,620)	(107,152)	14,531	(0)	(451,508)

As at 31 December 2019, the municipality recorded a deficit of R92 620 000, while it had initially expected a deficit of R107 152 000. This is after year-to-date revenue of R954 927 000 and expenditure of R1 047 548 000. Cognisance must be taken that, included in the total revenue is the revenue from transfers recognised – capital in the amount of R45 233 000. The variance in actual performance and the budget is mainly due the equitable share of R124 million not received during the first half of the year as projected.

4.2 Capital budget performance

The capital budget of the municipality seem to be performing very slowly. The capital expenditure for the first half of the financial year amounted to R49 087 000, which represents 26.5% of the special approved adjusted budget of R184 869 000. Comparison between the pro rata budget of R92 434 000 and actual expenditure for the period reflects an under expenditure of R43 347 000, which implies that the municipality spent 47% less than the budget during the same period. The under expenditure is mainly attributed to delay in the supply chain process as well as the cash-flow situation. Departments are encouraged to spend more on grants to avoid the reverting of conditional grants to the National Revenue Fund.

4.2.1 Capital expenditure by municipal vote

Table 4 below reflects the high-level summary of capital expenditure by municipal vote or department. Table clearly indicates that there is relatively low expenditure in Technical Services. This department is carrying about 80 percent of the capital budget of the entire municipality.

Table 4: Capital Expenditure by Municipal Vote

Description	2018/19	Budget Year 2019/20							
	Audited Outcome	Original Budget	Adjusted Budget	Monthly actual	YearTD actual	YearTD budget	YTD variance	YTD variance %

4.2.2 Capital expenditure by funding source

Table 5 below reflects the high-level summary of capital expenditure by funding sources.

Table 5: Capital Expenditure by Funding Source

Vote Description R thousands	2018/19	Budget Year 2019/20						
	Audited Outcome	Original Budget	Adjusted Budget	Monthly actual	YearTD actual	YearTD budget	YTD variance	YTD variance %
Funded by:								
National Government	108,854	164,946	154,946	6,127	45,233	77,473	(32,240)	-42%
Provincial Government	18,785	8,243	8,243	-	-	4,122	(4,122)	-100%
Internally generated funds	31,254	33,930	21,680	1,405	3,855	10,840	(6,985)	-64%
Total Capital Funding	158,893	207,119	184,869	7,532	49,087	92,434	(43,347)	-47%

Internally funded projects

Approximately R21 680 000 of the capital projects are funded from internal reserves. As at the end of the first half of the financial year, the municipality had spent R3 855 000 (18%) of the internally funded projects. During the same period, the municipality spent R6 985 000 less on such funded projects than a pro-rata budget of R10 840 000, which represents under-performance of 64%. Only three projects that are spending, that is furniture & equipment (83%) Land development Lenville sites (87%) and Resealing of road Newcastle West (25%). Council is also reminded of R7 774 936 that was rolled over from 2018/19 to 2019/20 of which only R2 937 639 has been spent. Furthermore, council is advised to relook on such projects in the adjustments budget if they are necessary taking into consideration the financial situation of the municipality.

Grant funded projects

Approximately R163 189 000 of the capital projects are funded from grants, with R154 946 000 and R8 243 000 from national and provincial governments respectively. Most of the funding for these grants have already been received by the municipality. As at the end of the first half of the financial year, the municipality had spent R45 233 000 (27%) of the grant funded projects. During the same period, the municipality spent R36 362 000 less on such funded projects than a pro-rata budget of R81 594 000, which represents under-performance of 45%. This was due project and procurement plans as prepared by departments, slow SCM processes as well as the cash flow challenges faced by the municipality. It is imperative that expenditure on these projects is fast-tracked in order to avoid funds being reverted to the National Revenue Fund at the end of the year.

4.3 Financial position

As at end the sixth month of the financial year, the municipality seemed to be showing a favourable equity position, with a net effect of R6.6 billion. While this picture looks good, it is however important to point out major contributors to such a favourable equity position being assets consumer debtors and the property plant and equipment, investment in associate as well as the liabilities such as long term loans, consumer deposits, trade and payables (inclusive of unspent conditional grants) and other provisions. The analysis of these financial position items will be discussed in comparison with the available cash and cash equivalent

at the end of the review period. Table 6 below reflects the summary of financial position of the municipality as at 31 December 2019 as per C6 table:

Table 6: Statement of Financial Position

4.3.1 Assets

Variances were noted between the budgeted values of assets and the actuals recorded at the end of the review period. As at the end of December 2019, the municipality recorded total assets of R8.1 billion, made up of R848.6 million and R7.2 billion for current assets and non-current assets respectively. Current assets are those assets that are likely to be converted into cash within twelve months, which non-current assets are likely to be received as cash other a long-term. The following asset items were noted to require attention during the adjustments budget.

Cash and investments

As at the end of December 2019, the municipality recorded cash and investments of R47.0 million at the end of the first half of the year. The projected cash and investments for year amounts to R9.6 million, a difference of R37.4 million. This is due to additional grants that the municipality has received and invested during first half of the financial year. These investments are expected to be utilised during the last half of the financial year. Based on the current payment factor and expenditure levels, the budget for cash and cash equivalents will still be looked at during the adjustments budget.

Consumer debtors

As at the end of December 2019, the municipality recorded consumer debtors of R686.3 million, representing about 9% of the total assets. Table SC3 of Schedule C reflects that gross consumer debtors amounted to R1.5 billion at the end of December. Looking at the annual budgeted consumer debtors of R337.9 million, consumer debtors appear to be understated by almost R348.4 million. This is due to the fact that the impact of debt impairment will be fully effected at the end of the financial year. This is also an indication of the rate at which consumer debtors are escalating. It will be important that council fast-track implementation of its credit control and debt collection strategies in order to collect the outstanding debtors. The municipality will need to estimate the projected annual debtors and the provision for debt impairment in order to accurately budget for the consumer debtors projected at the end of the financial year.

Inventory

As at the end of December 2019, the municipality recorded inventory to the value of R14.0 million. This is R264 thousands more the amount of R13.7 million projected for at the end of the financial year. This is due to the stock that the municipality has purchased during the first six months of the financial, which stock will be utilised during the remainder of the financial year for service delivery. However, the budget for inventory will be reviewed in line with the expected demand and requirements during the adjustments budget.

Investment Property

As at the end of December 2019, the municipality recorded investment properties to the value of R357.1 million, representing 4% of the total assets. This is R22 million less than the amount of R379.6 million projected for at the end of the financial year. The variance is attributable to the fair value conducted by the municipality in June 2019. Correction will be made in the adjustments budget in line with the recent valuation.

Investment in Associate

As at the end of December 2019, the municipality recorded Investment in uThukela Water to the value of R234.9 million, representing 3% of the total assets. This is R27.2 million less than the amount of R262.1 million projected for at the end of the financial year. The budget for this item was based on the Entity's 2017/18 audited financial statements. Corrections will be made in the adjustments budget based on the Entity's recent net asset value as reported in the 2018/19 audited annual financial statements.

Property Plant and Equipment (PPE)

Property Plant and Equipment comprised of R6.6 billion of the total assets of R8.1 billion, which represents 82% of the total assets. These assets comprise of roads and storm water, water and infrastructure, electricity infrastructure, community assets, and other plants and equipment which the municipality has acquired mainly for service delivery and for its own

use. Service delivery of the municipal is majored by its ability to provide these services to communities.

As at the end of December 2019, the municipality recorded PPE to the value of R6.6 billion. This is R102.5 million more than the amount of R6.5 billion projected for at the end of the financial year. This is mainly due to additions to on capital projects, which will result in additional infrastructure. PPE need to be relooked in line with the projected CAPEX and depreciation during the adjustments budget.

Intangible Assets

As at the end of December 2019, the municipality recorded intangible assets to the value of R1.7 million. This is R2.0 million less than the amount of R3.7 million projected for at the end of the financial year. This is due to the depreciation of assets and some of the assets reaching its useful lives. The projection for the intangible assets will need to be adjusted downwards in line with the updated asset register during the adjustments budget.

4.3.2 Liabilities

Variances were noted between the budgeted values of liabilities and the actuals recorded at the end of the review period. As at the end of December 2019, the municipality recorded total liabilities of R1.5 billion, made up of R976.5 million and R534.9 million for current liabilities and non-current liabilities respectively. Current liabilities are those liabilities that are payable by the municipality within the twelve months, while non-current liabilities are those liabilities that are payable over a period beyond twelve months. The following liability items were noted to require attention during the adjustments budget.

Borrowings

As at the end of December 2019, the municipality recorded total borrowings of R414.9 million, while the municipality had budgeted that borrowings will be standing at R581.3 million at the end financial year. It is therefore clear that the projection of R581.3 million is overstated since the balance all loans is already below this figure. Based on the updated amortisation schedules, the projection for borrowings will be corrected during the adjustments budget.

Consumer deposits

As at the end of December 2019, the municipality recorded consumer deposits of R24.5 million. This figure is R1.6 million more that the budget of R22.9 million projected for at the end of the financial year. This is due to a resolution taken by council to increase deposits for new and defaulting consumers. The budget for consumer deposits will be corrected in line with the updated deposit register during the adjustments budget.

Trade and other payables

As at the end of December 2019, the municipality recorded trade and other payables amounting to R886.2 million. This amount includes, but limited to, trade creditors of R504.9 million, unspent conditional grants of R92.3 million, retentions of R40.5 million, leave provision of R29 million, bonus provision of R12.5 million, and vat levied of R186 million. Important to note is the fact that cash and cash equivalents of R47.0 million as discussed in assets above was not adequate to honour these obligations. Taking into account trade creditors of R504.9 million, Housing Development Fund (HDF) of R28.8 million and unspent

conditional grants of R92.3 million, this means that municipality is operating at a cash deficit of R577.2 million.

The municipality has projected trade and other payable of R363 million at the end of the financial year. The current balance of R683.9 million for trade and other payables indicates that the budget of R363 million is understated. This is due to cash flow challenges faced by the municipality, which results in invoices not being paid on time. The municipality must make use of the adjustments budget to correctly project for trade and other payables at the end of the year. But also, it must use the same opportunity to ensure that budget is limited to realistic receipts. Measures must be implemented to ensure that purchase orders are only generated for goods and services for which cash will be available to honour.

Unspent conditional grants

As at the end of December 2019, the municipality had unspent conditional grants amounting to R92.3 million. It will be important that expenditure on conditional grants is fast-tracked in line with their conditions of grants so that the municipality does not lose such grants to National Treasury at the end of the financial year. As indicated above, the balance of cash and cash equivalent of R47.0 million indicates that conditional grants are not fully cash-backed, taking into account the HDF and trade creditors.

Provisions

As at the end of December 2019, the municipality recorded total provisions amounting to R185.8 million. This is R1.4 million less than the budget of R184.4 million projected for provisions at the end of the financial year. This includes provisions for landfill site and defined benefit plan. The variance between the budget and the actual is attributable to valuations that have been performed by the municipality at the end of the 2018/19 financial, however this variance is considered to be minimal and within the acceptable level

4.3.3 Net current assets

The municipality recorded an unfavourable net current position at the end of December 2019, with current assets (R848.6 million) not below current liabilities (R975.9 million) by R12.7 million. This represents a current ratio of 0.87, which is however below the National Treasury recommended norm of 1.5. This picture however indicates that, when converted into cash, the current assets of the municipality will not be adequate to cover its short-term obligations. It is also noted that consumer debtors represents about 81% of the current assets. This therefore implies that the municipality will need to focus on the collection of its consumer debtors in order to ensure that adequate cash is collected in order to pay its current liabilities over the next six months.

4.4 Cash flow analysis

Table 7 below reflects the summary of cash flow movements for the past six months as extracted from table C7 of the Schedule C.

Table 7: Cash Flow Statement

Cash/cash equivalents at month/year end:	9,724	32,414	1,462		47,011	103,811			1,461

The municipality opened with a cash and cash equivalent balance of R9.9 million at the beginning of the financial year. As at the end of sixth month of the financial year, the municipality had recorded cash balance of R47.0 million, representing a cash increase of R37.1 million.

4.4.1 Cash flows from operating activities

Operating activities are those receipts and payments that are received and paid by the municipality in the normal operations of the municipality. These include receipts from property rates, service charges, grants, all sundry revenue and payments of employees, service charges and finance charges. As at the end of the sixth month, the municipality recorded receipts and payments of R875 387 million and payments of R777 606 million from operating activities respectively. Cash flows from operating activities yielded a net cash inflow of R97.7

million. This is R66.8 million less than the year-to-date budget of R164.6. This mainly due to the equitable share not received as expected.

4.4.2 Cash flows from investing activities

Investing activities are those receipts and payments that are received and paid by the municipality as a result of disposal or acquisition of its assets, collection or payments on non-current debtors and withdrawal or advancing of investments. As at the end of the sixth month, the municipality recorded payments of R49.1 million from investing activities for the acquisition of assets in terms of the approved capital budget. No receipts were recorded for this purpose. This is R11.6 million lower than the year-to-date budget of R60.7, mainly due to low capital expenditure. There is a need look into the cash flow budget for investing activities in line with CAPEX during the adjustments budget.

4.4.3 Cash flows from financing activities

Financing activities are those receipts and payments that are received and paid by the municipality to acquire external loans and the repayment of such external loans. As at the end of the sixth month, the municipality recorded payments of R11.7 million from financing activities for the repayment. No receipts of external loans were recorded for this purpose. This is R1.5 million more than the year-to-date budget of R10.1 million, mainly due to incorrect budgeting. The budget for the cash flows from financing activities will be corrected during the adjustments budget.

5. CONCLUSION

Operating revenue seem to be performing slightly above the budget, with the exception of the delays encountered to receive all grants in time. This has resulted in the municipality recording a deficit in first half of the year. Sundry revenue is performing poorly, which triggers the need for adjust downwards during the adjustments budget.

Overall, operating expenditure and capital expenditure are under-performing, mainly due to cash-flow challenges faced by the municipality. There is a need to consider adjusting most of the operating expenditure items downwards during the adjustments budget, particularly the depreciation, debt impairment, general expenditure and bulk purchases. While capital expenditure is severely underspending, the municipality is advised to implement measures to fask-track expenditure, as the bulk of the capital budget is funded from grants.

The solvency position of the municipality looks favourable, the municipality however recorded an unfavourable liquidity position. Its cash reserves and current assets are inadequate to cover for its short term obligations. This indicates a dire state of affairs which must me attended to urgently. Furthermore, the municipality will need to ensure that its balance sheet and cash flow budgets are reviewed during the adjustments budget, in order to ensure that it reflects the realistic projected picture at the end of the financial year.

6. RECOMMENDATIONS

It is recommended:

- (a) that the mid-year budget review for the period ended 31 December 2019 be noted and approved;
- (b) that, based on the variances presented between the approved budget and actuals for the first half of the year, an adjustment budget is necessary;
- (c) that the Accounting Officer be mandated to submit the mid-year assessment report to National and Provincial Treasuries as required by S72(1)(b) of the Municipal Finance Management Act No.56 of 2003;
- (d) that, subject to approval of recommendation of (b) above, that the Accounting Officer be mandated to submit an adjustments budget in terms of section 28 of the MFMA;
- (e) that departmental budgetary requirements be dealt with administratively and addressed in terms of the approved virement policy pending approval of the adjustments budget;

References

1. Municipalities may choose to appropriate for capital expenditure for three years or for one year (if one year appropriation projected expenditure required for yr2 and yr3).
2. Include capital component of PPP unitary payment
3. Capital expenditure by functional classification must reconcile to the total of multi-year and single year appropriations
4. Include expenditure on investment property, intangible and biological assets
5. Must reconcile to Monthly Budget Statement Financial Performance (revenue and expenditure)
6. Include finance leases and PPP capital funding component of unitary payment - total borrowing/repayments to reconcile to changes in Table SA17

References

1. Material variances to be explained in Table SC1

KZN252 Newcastle - Supporting Table SC1 Material variance explanations - Mid-Year Assessment

Ref	Description	Variance	Reasons for material deviations	Remedial or corrective steps/remarks
1	R thousands Revenue By Source			
	Service charges - water revenue	13%	The hot summer season, coupled with lower rain levels have resulted in more demand for water consumption	There is a need to rebok and correct the budget for this item in line with realistic consumption and trends during the adjustments budget.
	Rental of facilities and equipment	-8%	This is due to a time lag when one tenant vacates the property and the time when the new tenant takes occupation of the property	The variance seem very minimal there is no need to adjust this item.
	Service charges - refuse revenue	-18%	Challenges in the waste water management has led to this variance, consumers are being reluctant to pay for this service due to none collection of refuse on weekly basis	There is a need to rebok at this item during the adjustments budget.
	Interest earned - external investments	-57%	Due to an increase on our debtors book	There is no need for this item to be adjusted
	Interest earned - outstanding debtors	-15%	This variance is attributable to the effective incentive scheme which was implemented by the municipality over the past twelve months.	There is a need to adjust this item downwards during the adjustments budget.
	Fines, penalties and forfeits	75%	Fines are dependent on law enforcement and compliance of motorists thereto.	There is a need to adjust this item downwards during the adjustments budget.
	Licences and permits	-32%	Dependent on the consumers reaction	There is a need to adjust this item downwards during the adjustments budget.
	Other Revenue	-72%	Other revenue is dependent on levels of consumption and therefore fluctuates every month.	This item will be adjusted downward during the adjustments budget.
2	Expenditure By Type			
	Debt Impairment	-32%	Bulk of the Debt Impairment is calculated bi-annually	Based on the current collection trends and audit of indigents, this item will still be looked at during the adjustments budget
	Depreciation & asset impairment	-25%	The variance is attributable to the slow capital expenditure as well as over-budgeting for depreciation of assets have already reached its useful life	This item will be adjusted downwards during the adjustments budget.
	Finance charges	18%	The variance is attributable to overdue payments of loans with both ABSA and DBSA.	Through the new amortisation schedules, this will be corrected during the adjustments budget
	Contracted Services	42%	Invoice from service providers haven't yet received	The municipality is urged to implement strict budget control measure in order to remain within the budget
	Other Material	-55%	Cross cut measures are implemented to reduce the expenditure for material	Adjustment will be necessary for department to use savings to votes which are more critical
	Other expenditure	-38%	Cross cut measures are implemented to reduce the expenditure for other expenditure	Adjustment will be necessary for department to use savings to votes which are more critical
3	Capital Expenditure			
	Grant funded projects	-45%	Delays in the SCM process, particularly on appointment consultants, incapacity of contractors	Fast track SCM processes and management of contractors
	Internally funded projects	-64%	Most of projects rolled over from 2016/17, with no need for new SCM processes	None
	Repairs and maintenance	36%	Under-budgeting due to cash-flow challenges	None
4	Financial Position			
	Property Plant and Equipment		Slow capital expenditure and depreciation	
	Investment property		Revaluation, which was finalised after financial budget was approved	
	Investment in Associate		Decrease in Net Asset Value of the Entity, which was confirmed after annual budget was approved	
	Consumer Debtors		Change in bad debt provision due to clearing up of debtors and indigent books	
	Trade and other payables		Error during annual budgeting	
5	Cash Flow			
	Net Cash from Operating Activities	41%	Equitable Share and other grants bulk of it received early in the financial year	
	Net Cash Used from Investing Activities	19%	Slow capital expenditure	
	Net Cash Used from Financial Activities	-16%	Based on amortisation schedules	None
6	Measurable performance			
7	Municipal Entities
