## 1. INTRODUCTION.

In order to ensure certain minimum quality standards of the Integrated Development Plan (IDP), and a proper coordination between and within spheres of government, the preparation of the Process Plan has been referenced from the Municipal Systems Act of 2000 (Act No. 32 of 2000). The preparation of a Process Plan, which is, in essence, the IDP Process set out in writing, requires the adoption by Council. This plan has to include the following:-

- A programme specifying the time frames for the different planning steps;
- Appropriate mechanisms, processes and procedures for consultation and participation of local communities, organs of state, traditional authorities, and other role players in the IDP drafting process;
- An indication of the organisational arrangements for the IDP process;
- Binding plans and planning requirements, i.e. policy and legislation; and
- Mechanisms and procedures for vertical and horizontal alignment.

## 2. LEGAL CONTEXT.

### 2.1. The Integrated Development Plan.

- i. Chapter 5, Section 25(1) of the Municipal Systems Act No. 32 of 2000 states that –

*“Each municipal council must, within a prescribed period after the start of its elected term, adopt a single, all-inclusive and strategic plan for the development of the municipality which –*

- a) Links integrates and coordinates plans and takes into account proposals for the development of the municipality;*
- b) Aligns the resources and capacity of the municipality with the implementation of the plan;*
- c) Complies with the provisions of this Chapter; and*
- d) Is compatible with national and provincial development plans and planning requirements binding on the municipality in terms of legislation.”*

- ii. In terms of the core components of integrated development plans, Chapter 5, Section 26 of the Municipal Systems Act of 2000 (Act No. 32 of 2000) indicates that –

*“An integrated development plan must reflect –*

- a) *The municipal council's vision for the long term development of the municipality with special emphasis on the municipality's most critical development and internal transformation needs;*
- b) *An assessment of the existing level of development in the municipality, which must include an identification of communities which do not have access to basic municipal services;*
- c) *The council's development priorities and objectives for its elected term, including its local economic development aims and its internal transformation needs;*
- d) *The council's development strategies which must be aligned with any national and provincial sectoral plans and planning requirements binding on the municipality in terms of legislation;*
- e) *A spatial development framework which must include the provision of basic guidelines for a land use management system for the municipality;*
- f) *The council's operational strategies;*
- g) *Applicable disaster management plans;*
- h) *A financial plan, which must include a budget projection for at least the next three years; and*
- i) *The key performance indicators and performance targets determined in terms of Section 41."*

## **2.2. The Process Plan.**

2.2.1. In order to establish an all-encompassing strategic plan for the municipality, Chapter 5, Section 28 of the Municipal Systems Act of 2000 (Act No. 32 of 2000) specifies the adoption of a process in which:-

- (1) *"Each municipal council, within a prescribed period after the start of its elected term, must adopt a process set out in writing to guide the planning, drafting, adoption and review of its integrated development plan.*
- (2) *The municipality must through appropriate mechanisms, processes and procedures established in terms of Chapter 4, consult the local community before adopting the process.*
- (3) *A municipality must give notice to the local community of particulars of the process it intends to follow."*

## **2.3. The Annual Budget.**

2.3.1. The Annual Budget and the IDP are inseparably linked to one another, something that has been formalised through the promulgation of the Municipal Finance Management Act of 2003 (Act No. 56 of 2003). Chapter 4, Section 21(1) of the Municipal Finance Management Act (MFMA) states that:-

*“The Mayor of a municipality must –*

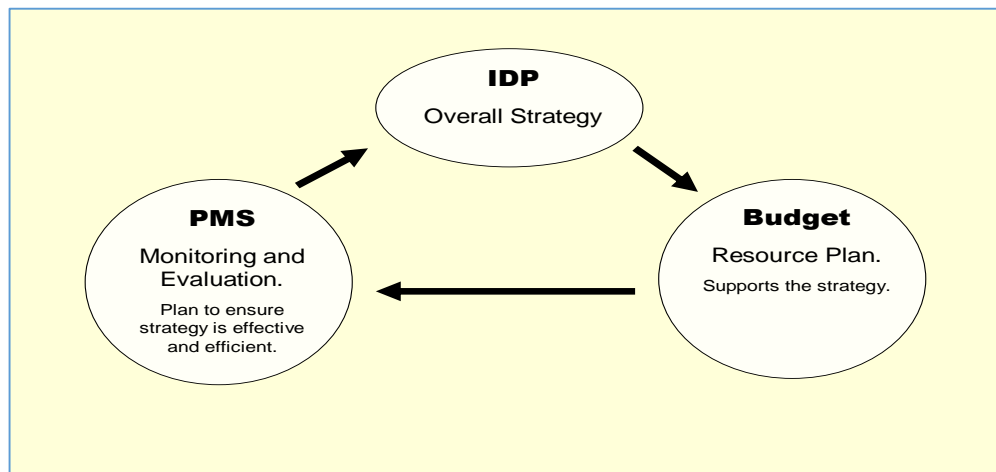

*(b) At least 10 months before the start of the budget year, table in the Municipal Council a time schedule outlining key deadlines for:*

- i. The preparation, tabling and approval of the annual budget;*
- ii. The annual review of:*
  - aa) The integrated development plan in terms of Section 34 of the Municipal Systems Act; and*
  - bb) The budget related policies.*
- iii. The tabling and adoption of any amendments to the integrated development plan and the budget-related policies; and*
- iv. The consultative processes forming part of the processes referred to in subparagraphs (i), (ii) and (iii).*

### **3. ALIGNMENT OF THE IDP, BUDGET AND PERFORMANCE MANAGEMENT PROCESSES.**

Every attempt has been made in this Process Plan to align the IDP and Budget preparation process, and the Performance Management System (PMS) review. The linkages of the three processes are summarised in the following diagram:-

- Achieving South Africa's transformation agenda requires functional municipalities and a capable machinery at a local level that has the ability to create safe and healthy economically-sustainable areas where citizens and people can work, live and socialize.
- The Back to Basics Programme is premised on the recent review of all the 278 municipalities within South Africa which distinguishes between three groups of municipalities namely the Top Group, Middle Group, and the Lower Group.
- The goal of the Back to Basics Programme is to improve the functioning of municipalities in order to effectively render meaningful basic services to communities.
- It also attempts to address the challenges that are faced by local government by strengthening municipalities and instilling a sense of urgency towards improving the lives of citizens.
- In terms of the programme, clear benchmarks are set and these are directed towards increasing performance in Government's efforts to ensure that all municipalities perform these basic functions without compromise.
- The Department of Cooperative Governance has developed a set of indicators to be reported on with the frequency being monthly and these will function thus to measure whether Newcastle Local Municipality is performing in terms of the basics and these are as follows:-

  - Delivering basic services;
  - Good governance;

## 6. COMPOSITION/COMPONENTS OF THE IDP REVIEW.

Section 26 of the Municipal Systems Act (Act No. 32 of 2000) prescribes the key components of an IDP. In keeping consistency with this section of the Act, Newcastle Municipality's IDP will be presented in four main sections as follows:-

- The Executive Summary which gives the municipal overview and development challenges.
- An outline of the key development issues and trends based on an analysis of the current level of development (Situational Analysis).
- A Strategic Framework which outlines Council's long term vision with specific emphasis on the municipality's most critical development objectives, action plans and strategies.
- A Capital Program including a one year program, three year program aligned to the Medium Term Expenditure Framework and the five year plan.
- An Implementation Framework which includes sector plans particularly the Financial Plan, and the Spatial Development Framework.

## **7. HORIZONTAL AND VERTICAL ALIGNMENT.**

### **7.1. Framework Plan.**

In terms of Chapter 5, Section 26 of the Municipal Systems Act, 2000 (Act No. 32 of 2000), District Municipalities are required to prepare and adopt a Framework Plan, which indicates how the District and Local Municipalities will align their IDP's. The Framework Plan provides the linkage and binding relationships to be established between the district and local municipalities in the region and in so doing, proper consultation, coordination and alignment of the review process of the district municipality and various local municipalities can be maintained.

The Amajuba District Municipality has established the IDP Coordination Committee which is also attended by COGTA to provide strategic direction to the IDPs. This IDP preparation process will also use this forum for vertical and horizontal alignment with other family of municipalities.

As a result, the Newcastle IDP will reflect vertical and horizontal integration of development priorities such that it becomes a document that other development agencies are comfortable with and can use to deliver on their mandates. The IDP preparation process will consider these documents with a particular focus on the extent to which we meet these requirements.

### **7.2. Alignment with the Sector Departments.**

Alignment with Sector Departments is essential in order for the Newcastle Local Municipality's priorities to be reflected in the project prioritisation process, and also for the projects to be reflected in the IDP documentation. It is anticipated a series of one-on-one meetings with key departments and relevant parastatals will be held through the IDP Representative Forum, and also through the recently introduced District Development Model. This will also entail the participation within other IGR initiatives either by COGTA and/or SALGA, aimed towards enhancing Integrated Development Planning.

## **8. IDP STEERING COMMITTEE.**

### **8.1. Institutional Arrangements.**

An IDP Steering Committee has been established in order to give guidance to the development of the IDP. The Steering Committee is a technical working team of dedicated heads of departments and senior officials who support the Director IDP/IDP Manager to ensure a smooth planning process. The Director IDP/IDP Manager is responsible for the IDP process, but will often delegate functions to members of the Steering Committee.

The IDP Steering Committee acts as a support to the IDP Representative Forum, making technical decisions and inputs to the Municipal Manager and Director IDP. ## 12.FUNCTIONS AND CONTEXT OF PUBLIC PARTICIPATION.

Four major functions can be aligned with the public participation process namely:-

- Needs identification and prioritization;
- Identification of appropriateness of proposed solutions;
- Community ownership and buy-in; and
- Community Empowerment.

### 12.1. Mechanisms for Participation.

Public participation is important to determine the exact needs that exist in the communities in relation to the developmental priorities during the public meetings and information gathering. The Newcastle Municipality will be utilizing the following mechanisms for public participation when developing its IDP.

- a) **IDP Representative Forum (IDP RF):** This forum represents all stakeholders and key interested and affected parties. This includes the Ward Committees, AmaKhosi, Non-Governmental Organizations (NGOs), Community Based Organisations (CBOs), Organized Business, Faith Organizations and organized agriculture.
- b) **Media:** Local newspapers will be used to inform the community of the progress of the IDP and further due meetings including the IDPRF and community road shows.
- c) **Radio Slots:** The Newcastle Community radio station will be used to make public announcements where necessary.
- d) **The Newcastle Website:** The Newcastle Municipality's website will also be utilized to communicate and inform the community. Copies of the IDP and Budget will be placed on the website for communities, general stakeholders and service providers to download.
- e) **Ward Committees:** The Newcastle Municipality has adopted the Ward Committee policy which has resulted to the establishment of ward committees. The municipality considers ward committees as one of the institutional bodies to fast-track service delivery and deepen democracy. Ward Committees will be represented in the IDPRF and their input is always considered. They will also be used to disseminate information about the developmental agenda of the municipality.
- f) **IDP/ Budget Road Shows:** The Newcastle Municipality will be hosting its community road shows through a ward committee system to publicize the Draft IDP and Budget during April and May. The venues for these meetings will be publicized at the IDPRF, public places as well as through the local print media.
- g) **Issuing of Communication Material:** Communication material in the form of information sheets will be issued thus to inform the community of the progress of the IDP and any other related meetings. The communication material shall be translated into the languages of our communities, particularly IsiZulu, in order to encourage public participation even further.

Kindly note that Newcastle Municipality commits itself to ensuring effective public participation, therefore, all public notices will be given both in English and IsiZulu.

## 14.PROPOSED COST ESTIMATES FOR THE IDP REVIEW PROCESS.

The preparation, implementation and management of the Newcastle Municipality's IDP is done in-house, under the Office of the Municipal Manager. The Newcastle Local Municipality has a well capacitated department that deals with the implementation of the Integrated Development Planning Process.

## 15.COUNCIL APPROVAL OF THE IDP.

This is the most important stage of the IDP process required in terms of Chapter 5 and Section 28 of the Local Government Municipal Systems Act, 2000 (Act No. 32 of 2000), that the *municipal council, within a prescribed period after the start of its elected term, must adopt a process set out in writing to guide the planning, drafting, adoption and review of its Integrated Development Plan.*
