The promulgation of the MFMA prescribed the standardised and uniform formats of municipal budgets, adjustments budget, mid-year reports, quarterly reports and monthly reports. SECTION 52 (d): QUARTERLY BUDGET STATEMENT: NATIONAL REPORTING STANDARD: TWO QUARTER: 31 DECEMBER 2023: FILE NUMBER 7/1/1 (2023/24)

4.1 Operating budget performance -revenue

- The municipality generated a total revenue of R1.3 billion of the original budget of R2.3 billion, representing 56%. The variance between the year-to-date revenue budget and the actual revenue accrued for the same period amounts to R1.6 million. Although the aggregate performance on revenue generated shows a variance of negative (0.1%), it is necessary to explain reasons which attributed to the variance.
- The municipality generated R15.6 million less revenue from service charges than the year-to-date budget of R672.8 million for the period under review. Electricity and waste management underperformed below target by R17.2 million, R652 thousand respectively whereas water and sanitation overperformed by R1.5 million, R777 thousand respectively. Furthermore, it must be noted that the alignment of S71 report figures is net of indigents while the monthly collection rate report reflects gross amounts.
- The municipality generated revenue from property rates which is R5.5 million (3%) more than the year-to-date budget of R198.3 million during the period under review. It must be mentioned that government departments are billed a bulk amount for property rates in the first month of the financial year.
- The municipality generated R2.0 million (76%) less revenue from interest on investments than the year-to-date budget of R2.6 million for the period under review. This is due to the investment withdrawals made during the year.
- The municipality recorded R422.9 million for Operational and R86.1 million for capital transfers and subsidies. This is due to the grants received in line with the grant's payment schedule. The second trench of the Equitable share grant was received in December 2023 which has had an impact on the favourable financials reported this month.
- The municipality generated R9.4 million (64%) more revenue from sundry revenue than a pro-rata budget of R14.7 million for the period under review. The sundry items comprise of rental of facilities, Sale of Goods and Rendering of Services, interest earned from outstanding debtors, fines, licenses and other revenue. This over performance is contributed by the significant increase which is above (20%) from the following items, rentals received, Interest from Current and Non-Current Assets, Gains on disposal of Assets and additional fines billed.

4.2. Operating performance – expenditure

- The summary of the operating expenditure is reflected in C1 and C4 tables of Schedule C attached hereto. As at the end of the second quarter, the municipality incurred the total expenditure of R1.1 billion of the original budget of R2.7 billion, which represents (42%). The variance between the pro-rata expenditure budget and the actual expenditure incurred for the same period amounts to R205.9 million, representing under-expenditure of (15%).

SECTION 52 (d): QUARTERLY BUDGET STATEMENT: NATIONAL REPORTING STANDARD: TWO QUARTER: 31 DECEMBER 2023: FILE NUMBER 7/1/1 (2023/24)

- The municipality spent R38.9 million (11%) less on employee-related costs than the year-to-date budget of R362.3 million. This is due to exits not yet filled.
- Depreciation has under-performed by R3.3 million (2%) less in the sixth month of the financial year due to the very low capital expenditure and projects still under work in progress (not yet capitalized) in the prior years. Irrecoverable debts written off under-performed by R3.9 million (9%) less since the municipality is recognizing debt impairment on indigents only during the year, all other impairments are done at the compilation of Annual Financial Statements at year-end.
- The municipality spent R617 thousand (0%) more on the bulk purchases than the year-to-date budget of R330.4 million. This is due to the colder month's season, especially the month of August and performance is expected to stabilize gradually as it gets colder. The cost is generally averaging lower in the remaining months of the financial year. The impact of load shedding is also expected to reduce the consumption of bulk purchases during the year.
- Included on the inventory consumed includes the bulk water consumed in line with Circular 98 of the MFMA. It seems to be performing R5.6 million (7%) more than the year-to-date budget of R79.9 million, this is due to an increase in water purchases from uThukela water required. Issues on pipe bursts are being addressed, there are contractors appointed to address these challenges.
- The municipality spent R8.3 million (8%) less on contracted services than the year-to-date budget of R103.6 million, this is due to the delays in the appointment of contractors and the implementation of the cost containment policy.

Presentation of the operating performance function is required by National Treasury (NT) to be done by all municipality to achieve standardization and uniformity. The functions are regulated by the constitution and in line with MSCOA requirements.

- The table above shows that one of the functions have been over-spending when compared with the year-to-date budget. Economic and Environmental Services is overspent by R4.2 million (3%), Governance and Administration is underspent by R16.8 million (6%), Community and Public Safety is underspent by R20.9 million (14%), Trading services are underspent by R172.1 million (21%) and Other Services are underspent by R84 thousand (6%), this is mainly due to the cost containment measures put in place. Strategic Executive Directors of relevant functions must ensure that they operate within their approved budget to avoid unauthorized expenditure at year-end.

4.3. Capital expenditure.

The table below reflects the municipality's capital programme in relation to capital expenditure by municipal vote, capital expenditure by standard classification; and funding sources required to fund the capital budget, including information on capital transfers from National and Provincial departments:

SECTION 52 (d): QUARTERLY BUDGET STATEMENT: NATIONAL REPORTING STANDARD: TWO QUARTER: 31 DECEMBER 2023: FILE NUMBER 7/1/1 (2023/24)

- Capital expenditure for the sixth month of the financial year was R110.2 million, which represents (43%) of the original capital budget of R255.3 million. Comparison between the year-to-budget of R127.6 million and actual expenditure for the period reflects an under expenditure of R17.4 million, which implies that the municipality spent (14%) more than the year-to-date budget for the same period. The Strategic Executive Directors are advised to develop plans that will priorities spending on grant funded projects to avoid grants being reverted to the National Treasury.

4.3.1 Capital and Operational Grant Reporting

The table below reflects the grant performance when the full year budget and actuals are compared. A further comparison is also displayed between the year-to-date actuals vs. allocations received. The grant expenditure reflects adequate spending in some grants on both operational and capital grants while others are delayed, fast tracking of the grants needs to be made to avoid withholding of unspent grants, over all expenditure of the grants is as follows. Furthermore, Treasury is assessing expenditure on a quarterly basis, therefore council and management are advised to ensure they meet the 25% target quarterly.

SECTION 52 (d): QUARTERLY BUDGET STATEMENT: NATIONAL REPORTING STANDARD: TWO
QUARTER: 31 DECEMBER 2023: FILE NUMBER 7/1/1 (2023/24)

- As at end of the sixth month of the financial year, the municipality showed a favorable equity position, with a net asset effect of R5.9 billion.
- While this picture looks good, it is however important to point out major reasons to such a favorable equity position, being consumer debtors and the property plant and equipment (assets), which cannot instantly be converted into cash. The following provides a closer look on some of critical financial position items:
 - The municipality's debtors aging as reflected in table SC3 is a total of R1.7 billion as at the end of the sixth month. The bulk of the debtor's ageing amount (R1.5 billion) was for debt owing for more than 90 days, while R1.4 billion of the total debt is owed by households. It must be noted that the total figure of debtors is inclusive of indigent.
 - Property Plant and Equipment (Assets) comprise of R5.9 billion of the total assets of R7.5 billion as reflected in table C6. These assets comprise of roads, community assets, water infrastructure, electricity infrastructure, other plants, and equipment which the municipality has acquired for service delivery as well as for its own use. Service delivery of the municipality is majored by its ability to provide these services to communities. It is however important to note that most of these assets may not be easily converted to cash and cash equivalent.
 - The municipality closed with a positive bank balance of R65.5 million at the end of the sixth month of the financial year. It must be noted that the municipality had an obligation of R32.2 million relating to the HDF. The short-term obligations are sitting at R437.0 million as illustrated on SC4, while unspent conditional grants amount to R174.5 million, representing a cash shortfall of R578.2 million. Included under creditors is Eskom for R161.7million, uThukela Water for R232.9 million, SARS – PAYE for R13.0 million, pension and other employee benefits for R26.9 million, and other trade creditors for R2.2 million. Looking at the cash position as mentioned above the municipality is currently not in the position to cover it short-term obligations, including unspent conditional grants.
 - The net asset value (assets minus liabilities) of the municipality indicates that the municipality is still a going concern. The **going concern** principle seeks to establish whether an entity will be in existence over the next twelve months or whether it will be liquidated. In terms of table C6, the total net asset of the municipality is R5.9 billion. The net current ratio indicates that the municipality's current assets will not be adequate to cover the current liabilities over the next twelve months. Due to the standing of the municipality by virtue of it being a government entity, the municipality is still regarded as a going concern since it is still expecting to receive rates and taxes and government grants over the next twelve months.
- The **liquidity ratio** of the municipality is currently sitting at 5.8% as reflected in table SC2. As per paragraph 2.4.4 above, however, if one considers the impact of the HDF, conditional grants and creditors, the liquidity ratio is estimated at 0.02%, since the municipality needs R437.0 million in order to pay all its short-term obligations. Again, this is a bad reflection on the state of finances of the municipality. As with the going concern principle, the liquidity state of the municipality is more likely to

SECTION 52 (d): QUARTERLY BUDGET STATEMENT: NATIONAL REPORTING STANDARD: TWO QUARTER: 31 DECEMBER 2023: FILE NUMBER 7/1/1 (2023/24)

negatively impact the image of the municipality to public, business sector and other spheres of government.

5. CONCLUSION

This report provides an overview of the organization's financial viability and sustainability, reflecting the In Year expenditure against the approved budget. It is however important that the report is submitted within the legislated timeframes in order to ensure compliance. Risk of non-compliance with S71 of the MFMA, should the report not reach the Mayor, Provincial Treasury and National Treasury within 10 working days after the end of the month.

6.2 SOCIAL-ECONOMIC IMPLICATIONS

The submission of the S71 report is also a requirement and compliance with the approved Budget Policy of Council, which is reviewed annually as part of the budget-related policies.

6.3 FINANCIAL IMPLICATIONS

There are no financial implications associated with the approval of this report. The report is intended to appraise council of the budget implementation to allow the council to monitor and take remedial steps should there be any material variances.
